

# RECLAIMFAST!

## **BunkerSweeper**500

The *BunkerSweeper500* is designed to make reclaiming grain from your bunker, ground pile or shed, into trucks quick and easy.

Sweep auger driven into grain pile

**Developed, designed and manufactured at our South Australian facility, the “self-propelled” *BunkerSweeper500* is perfect for grain distributors, handlers and farmers.**

The *BunkerSweeper500* is quick and easy to transport. Essential design elements make the unit safe and easy for one person to operate.

The *BunkerSweeper500* has a design capacity of 600 TPH (22,000 Bushels) and can be used to direct feed into trucks or directly into our *BunkerStacker* giving it great versatility.

Kilic Engineering has been designing and building material handling equipment for the grain industry for over 40 years.
