

RECLAIMFAST!

BunkerSweeper500

The *BunkerSweeper500* is designed to make reclaiming grain from your bunker, ground pile or shed, into trucks quick and easy.

Sweep auger driven into grain pile

Developed, designed and manufactured at our South Australian facility, the “self-propelled” *BunkerSweeper500* is perfect for grain distributors, handlers and farmers.

The *BunkerSweeper500* is quick and easy to transport. Essential design elements make the unit safe and easy for one person to operate.

The *BunkerSweeper500* has a design capacity of 500 TPH (18,000 Bushels) and can be used to direct feed into trucks or directly into our *BunkerStacker* giving it great versatility.

Kilic Engineering has been designing and building material handling equipment for the grain industry for over 40 years.
