

RECLAIM EASY!

BunkerSweeper600

The *BunkerSweeper600* is designed to make reclaiming grain from your temporary storage or shed, into trucks quick and easy.

The “self-propelled” *BunkerSweeper600* is perfect for grain distributors and handlers.

The *BunkerSweeper600* is quick and easy to transport. Essential design elements make the unit safe and easy for one person to operate.

The *BunkerSweeper600* has a design capacity of 600 TPH (22,000 bushels) and can be used to direct feed into trucks or directly into our *BunkerStacker* giving it great versatility.

Kilic Engineering (KE) has been designing and building material handling equipment for the grain industry for almost 50 years.

BunkerSweeper600

Self-propelled Temporary Storage Reclaimer

Capacity: 600 TPH (22,000 bushels)

Self-propelled (hydraulic drives)

FEATURES

Suitable for all grains
